

Great people.
Great camping.™

Campground Picture Frame Instructions

These are fun, easy craft projects for creating a camping memory keepsake.

You will need:

- Large popsicle sticks, or any pre-made picture frame
- Shells, sand, pine cones (something from your campground)
- Craft or wood glue
- Glitter glue or small foam letters (for popsicle frame)
- Magnets (3 for each popsicle frame)

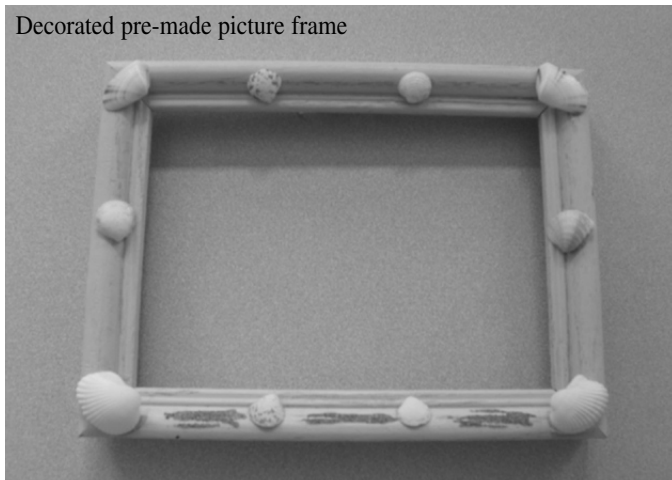

Decorating a pre-made frame:

1. Put the items you collected from the campground on the frame in whatever design you desire.
2. Glue on the objects and let them dry.
3. Then add your picture.

Making a KOA popsicle stick frame:

1. Glue 3 popsicle sticks into a KOA tent shape.
2. Put a magnet on the back of the frame at each point.
3. Turn the frame over to the front side and put things on where you think you would like them (leave room for the name of the campground) and then glue them on.
4. With glitter glue or small foam letters, write the name of the campground on the sides and let dry.
5. Size and tape your picture to the back of the frame.
6. Put it on the fridge.
